DETAILED ACTION
Allowable Subject Matter

1. Claims 1, 6, 11 are allowed.

The following is an examiner's statement of reasons for allowance. The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Regarding claim 1, the prior art, either singularly or in combination, does not teach or suggest an image reading apparatus comprising:

"...a counter which counts a number corresponding to the specific distance by which the color line sensor and the monochrome line sensor are separated, a first storage section which stores an image read by the monochrome line sensor, a second storage section which stores an image read by the color line sensor, and a start control section which starts to store an image read by either the color line sensor or the monochrome line sensor provided in a position corresponding to the trailing edge in the image reading direction of the sensor section, after the counter has counted the number corresponding to the specific distance..."

Regarding claim 6, the prior art, either singularly or in combination, does not teach or suggest an image reading method comprising:

"...counting a number corresponding to the specific distance by which the color line sensor and the monochrome line sensor are separated, and storing image data read by either the color line sensor or the monochrome line sensor provided on the trailing edge side in the image reading direction, after the number corresponding to the specific distance is counted..."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
